Product Parameters:

Items	Details	Description
Basic Parameters	Item	Tablet PC
	CPU	MTK8377
	CPU Frequency	1GHz
	DDR3 RAM	512MB DDR3
	NAND FLASH	4GB
	Operation System	Android4.1
	Internet Mode	GSM
	Internet	WIFI/2G/3G
	Camera	Front 0.3MP, Rear 2.0MP
	USB port	MINI
	battery	3100mAh
	AC adaptor	Input voltage DC 5V,current 2A
	Memory card	Micro SD card, Maximum storage 32G
Basic Functions	GPS Navigation	Built-in GPS satellite signal receiver can search the fixed

		position accurately
	GSM/3G communication	Built-in GSM/3G modules, you can achieve wireless communication function through SIM card
	Bluetooth	Built-in Bluetooth module Support FTP file delivery, you can share various fascinating documents in vicinity.
	G-sensor	Switch from crosswise and erect screen freely and support all kinds of gravity-reacted games, which can experience real game enjoyments.
	FM Radio	FM can bring many channels for your option.
Application procedure	Video play	Support 3GP、MP4 format, with maximum resolution of 720*576
	Music play	built-in music player, support MP3/AAC/AMR/WAV format
	Games	support installation of Android third party games

	Input method	Android keyboard, Google Pinyin input method
	Picture view	Support JPG、BMP、PNG、GIF format pictures view
	OFFICE software	Support office (word、excel read and edit),support PDF viewer

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the

limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: BW0767 (FCC ID: 2AANCBW) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at properly worn on the body is 0.936W/kg. This device was tested for typical body-worn operations with the back of the handset kept 0 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0 cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided
